FOR IMMEDIATE RELEASE

**TRIUMPH LEARNING INTRODUCES MASTERING THE TEKS ONLINE—  
BESTSELLING ELA AND MATH PRODUCTS NOW ACCESSIBLE ONLINE**

**All-New Digital Resource Library Packed with Instruction, Practice, and Assessments, *Plus*  
Real-Time Reports**

**New York, NY, January 2013**— *Mastering the TEKS Online* is a powerful digital program created exclusively for Texas. It provides the same proven content and instruction that has been relied upon in *Triumph Learning* student books for decades—with enhanced features made possible by technology. Educators will have full access to *Triumph Learning*'s bestselling Texas ELA and math series online for all grade levels, 3–8, for every single series!

The versatility, the total control by the teacher, and the dynamic level of differentiation are just a few of the many favorable functionalities of *Mastering the TEKS Online*. This program literally delivers hundreds of highly effective lessons and practice sessions at a click. Also instantly accessible are ready-made summative tests—plus, build-a-test feature allows for creating original assessments from thousands of clearly indexed items. Furthermore, it's an important tool for Response to Intervention—delivering appropriate content to students in each RTI tier, and using real-time data to support progression across tiers.

Educators can efficiently search specific standards, topics, or high-interest terms to identify just the leveled lesson they need—electronic assignment means students receive appropriately-leveled work in privacy. And the up-to-the minute data included in this program makes it so easy to diagnose, assess progress, and evaluate standards mastery. Analyzing items and sorting results in meaningful ways has never been simpler—by lesson, assessment, class, or student.

*Mastering the TEKS Online* lessons, practice, and assessments are easily projected on whiteboards, electronically assigned, or printed.

Teachers will truly love being able to determine how best to spend their own classroom time, students will greatly benefit from tried and true interactive practice, and parents will love having their very own logins to facilitate communication with their schools.
