FOR IMMEDIATE RELEASE

TRIUMPH LEARNING INTRODUCES NEW ELA AND MATH SERIES FOR THE COMMON CORE STATE STANDARDS

All-New Common Core Coach Arms Educators and Students for Achievement

New York, NY, September 2012—*Common Core Coach* for grades 3-8 delivers total coverage of the new standards. Developed by Triumph Learning expressly for the Common Core, this new series—ELA and math—enables educators to implement the Common Core State Standards with confidence. *Common Core Coach* mirrors the philosophy of the new standards: ELA integrates reading and writing using the proven model of gradual release, and covers all the CCSS in logical clusters; math focuses on domain progressions, building on prior knowledge with lessons, practice, reviews, and performance tasks.

Common Core Coach includes at each grade a comprehensive Student Edition, robust Teacher's Manual, and aligned Assessments, which are also available online. This instructional anchor has been designed for utmost flexibility—educators can use it successfully as their primary instructional vehicle or in partnership with their core text. Whichever the choice, *Common Core Coach* will support teachers and students in mastery of rigorous grade-specific CCSS requirements.

Triumph Learning has decades of experience translating the objectives of academic standards into focused lessons that lead to real understanding, and is a proud endorsing partner of the Common Core State Standards Initiative. As educators across the country seek reliable and effective Common Core support, Triumph is delighted to offer this timely and essential resource to classrooms nationwide.
